

STANDS

FOR MACHINES AND SYSTEMS

T-Base (With Double Locking Casters and Leveling Feet)

Features: 3" x 4" Structural Steel Tubing, Stainless Steel Fasteners, Sealed for Life Bearings, Powder Coated Finish

Options: Stainless Steel Construction, Pre-Drilled for Horizontal Kit, Casters Only, Leveling Feet Only, Tie Down Brackets for Casters

H-Base (With Double Locking Casters and Leveling Feet)

Features: 3" x 4" Structural Steel Tubing, Stainless Steel Fasteners, Sealed for Life Bearings, H-Shape Design Increases Stability and Strength, Powder Coated Finish

Options: Stainless Steel Construction, Casters Only, Leveling Feet Only, Tie Down Brackets for Casters

Double H-Base (With Double Locking Casters and Leveling Feet)

Features: 3" x 4" Structural Steel Tubing, Stainless Steel Fasteners, Sealed for Life Bearings, H-Shape Design Increases Stability and Strength, Ideal for Mounting Horizontal Kits, Powder Coated Finish

Options: Stainless Steel Construction, Casters Only, Leveling Feet Only, Tie Down Brackets for Casters

U-Base (With Double Locking Casters and Leveling Feet)

Features: 3" x 4" Structural Steel Tubing, Stainless Steel Fasteners, Sealed for Life Bearings, U-Shape Design Increases Stability, Ideal for Applicator Clearance Issues, Powder Coated Finish

Options: Stainless Steel Construction, Casters Only, Leveling Feet Only, Tie Down Brackets for Casters

Low Toe Base (With Double Locking Casters and Leveling Feet)

Features: 3" x 4" Structural Steel Tubing, Stainless Steel Fasteners, Sealed for Life Bearings, 1.5" Diameter Nose Roller, Ideal for Low Clearance Situations, Powder Coated Finish

Options: Stainless Steel Construction, Casters Only, Leveling Feet Only, Tie Down Brackets for Casters
